#Projects

iiMage | https://github.com/CristalGomez/Project3 | https://fierce-hollows-73170.herokuapp.com

ↄDeveloped a full-stack web-app in a small group. iiMage is a photo sharing and storage platform. Additionally, photographers offer their professional services to clients by communicating through the email feature on their profiles. Made with React.js, MongoDB, Express.js, Node.js, Anime.js, and Adobe Illustrator.

ↄDesigned each web page with Adobe Illustrator, built the databased with Mongo, built the ORM, and implemented the email feature on user profiles using SendGrid.

DrinksOnUs | https://github.com/CristalGomez/Project2| https://dry-savannah-14331.herokuapp.com/

ↄCollaborated with a small group to develop a full-stack website that served as a forum page. Users are able to leave comments on their favorite local bars in three different cities. Users are given the ability to create a forum for their bar if not already listed. Made with Handlebars.js, Node, Express, MySQL, Sequelize, Adobe Illustrator, Anime.js.

ↄScripted front-end features in jQuery, designed each web page with Adobe Illustrator, built UI using Handlebars.js and created animations using Anime.js.

MyMenu | https://github.com/HaifaSeyam/project-01 | https://haifaseyam.github.io/project-01/

ↄCollaborated with a small group to develop a front-end web-app that used two API calls to give users recipes for cocktails and meals based on ingredients they've selected. Made with HTML, CSS, jQuery, Materialize, Yummly API, and CocktailDB API.

ↄCoordinated closely with the CocktailDB API to create the cocktail recipe section of the website.

#Professional Experience

Bath & Body Works | Sales Leadership Team Member   January 2019 - Current: Pearland, TX

ↄPersonalize – Drive sales by up-selling products based on the customer's past purchases and preferences.

ↄTeach – Coach sales associates on how to up-sell and cross-sell, set goals aligned with their ability, and encourage associates to have engaging conversations with customers to increase brand loyalty.

ↄManage – Perform daily tasks including managing shipment, balancing register tills, opening and closing the store, and creating merchandise displays.
